CONNECT 2 EELISA

as a STUDENT

"The experience of getting involved in EELISA has been enlightening for me. It has taught me that the sky is not the limit—our only boundaries are those we set for ourselves, boundaries we can eventually surpass".

Sonia Maer

Aerospace Engineering Student at POLITEHNICA of Bucharest, Romania, and EELISA Student Council representative.

MEET EELISA

The **European Engineering Learning Innovation and Science Alliance** (EELISA) is a consortium of ten higher education institutions from eight different countries in Europe with the ambition of defining and implementing a new model of European engineer rooted in society and equipped to address the complex challenges of our time by connecting STEM disciplines with the social sciences and humanities. Through this interdisciplinary and European approach, EELISA seeks to foster inclusive, sustainable, and digitally enabled societies, while redefining engineering education around societal responsibility, innovation, and collaboration.

WHY GET INVOLVED?

EELISA offers you the opportunity to:

EXPAND YOUR HORIZONS

- Embark on an educational journey beyond geographical and institutional boundaries across a European Campus of 10 prestigious institutions, unlocking a wealth of knowledge and opportunities.
- Join a community of talented and highly skilled individuals connected to a growing network of partners and collaborators across Europe, expanding your opportunities for recruitment and collaboration.

CONNECT WITH EUROPE

- Gain access to European institutions to elevate the ideas and proposals generated by students in your university to a pan-European platform
- Join working groups on specific topics and unlock European funding opportunities to support your student projects and community initiatives.

MAKE AN IMPACT

- Learn, research, and collaborate with students, professors, experts, and public and private organizations to address real-world challenges aligned with the Sustainable Development Goals (SDGs).
- Create a significant impact within your community and across the globe as you progress through your academic and professional journey, earning recognition for your pivotal role as a change-maker.

CRAFT YOUR OWN JOURNEY

- Craft your own international and interdisciplinary curriculum, blending perspectives from various study fields to nurture a holistic learning experience.
- Engage with a cutting-edge research and innovation ecosystem actively seeking students like you!

CONNECT EELISA
as a STUDENT

HOW TO GET INVOLVED?

There are many ways to get involved in EELISA, from joining activities and short-term mobility opportunities to taking on active roles in operational structures or Alliance governance. You choose how far you want to go on your EELISA journey!

BE PART OF AN EELISA COMMUNITY

- Interdisciplinary, mission-driven groups that bring together staff, researchers, students, and external collaborators from across Europe to address societal challenges. They act as innovation incubators connecting academia with real-world practice to develop sustainable solutions. You can join their activies, become a member or create a new one!

BECOME AN EELISA STUDENT COUNCIL REPRESENTATIVE

- Following each EELISA institution's recruitment system, this Council brings together around twenty student representatives from partner universities. Its members contribute to EELISA's governance bodies and working teams, helping shape the Alliance's activities, priorities, and future.

PARTICIPATE IN THE EELISA CAREER AMBASSADORS PROGRAMM

- Whether as a participant or Student Ambassador, this programme prepares students for the transition to the labour market while strengthening employability, leadership, and peer-to-peer support across the Alliance. Get or provide guidance on career planning and job searches.

SHARE YOUR VOICE AS AN EELISA NARRATOR OR REPORTER!

- Become part of the dynamic EELISA Communication Team. Share your experience by writing insightful articles about EELISA activities you've taken part in or cover the Alliance's flagship events. Bring the student perspective to the forefront, and help increase the visibility of the Alliance, all while developing valuable communication skills and gaining hands-on experience.

JOIN EELISA CUTTING-EDGE ACTIVITIES, AND JOINT PROGRAMMES.

- There are countless opportunities to get involved in EELISA activities, all accessible through the EELISA Digital Campus. By logging in, you will also gain access to an interactive platform where you can connect, communicate and collaborate with fellow students, professors and partners who share your interests.

For more info, log into the EELISA Digital Campus or contact the EELISA Local Office at your institution!

DISCOVER STUDENT EXPERIENCES

"I first discovered EELISA through a poster on the wall. It was luck but it became an opportunity I will always be grateful for. I joined the EELISA Student Scientific Competition of Bucharest in 2025 as one of the first EELISA Student Reporters and after that, I became an EELISA Student Career Ambassador".

Betül Naz Duru

Bachelor's student in Computer Engineering, Budapest University of Technology and Economics - BME (Hugary).

Being part of the EELISA Student Council means going beyond the boundaries of your own university, engaging with students from all across Europe, and actively contributing to shaping the future of university collaboration. It is a personal growth experience that allows you to turn ideas into projects, give a voice to the students we represent, and meet new people while discovering different cities and university environments through exchange opportunities".

Tommaso Nencini

Honour Student in Engineering at Scuola Superiore Sant'Anna (Pisa, Italy)

Taking part in EELISA's campaign "Moving Stories Unboxed" made me realise how much we can learn from each other's experiences. This is what makes EELISA so valuable: it connects people from different universities, countries and backgrounds, creating opportunities to learn and grow together".

Giovanni Nottoli

PhD student in Chemistry, Faculty of Sciences. Scuola Normale Superiore, (Italy).
